RE: Plan of Operations Approval

Dear Mr. Lay:

The Division of Solid and Hazardous Waste has completed its review of the Plan of Operations dated July 9, 2014 addressing the reuse of the gypsum piles at the Georgia-Pacific LLC (GP) facility in Sigurd, Utah.

The Plan of Operation as submitted is hereby approved. Please note that GP is required to report to the Division each year the amount of material used as a soil amendment in the previous calendar year. This information should be included with the annual report.

Once the gypsum stockpiles have been removed completely, GP may request that the post-closure activities of Permit 1002C be complete as outlined in R315-302-3(7) of the Utah Administrative Code.

If you have any questions, please call Doug Taylor at (801) 536-0240.

Sincerely,

Scott T. Anderson, Director  
Division of Solid and Hazardous Waste
